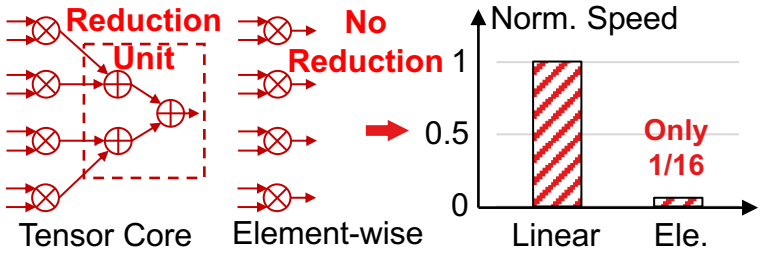
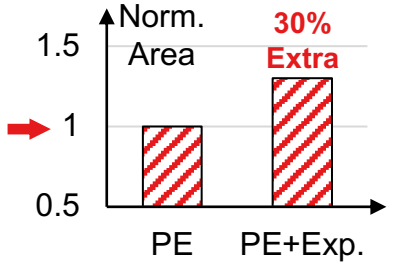
Incompatibility between Element-wise Operations and Tensor Core



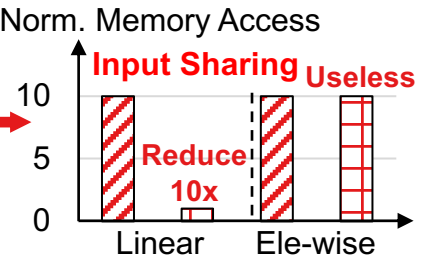
30% Area Overhead for Nonlinear Function Unit

Unit	Node	Area/um²
PE [19]	28nm	32500
Exp. [28]	28nm	10800

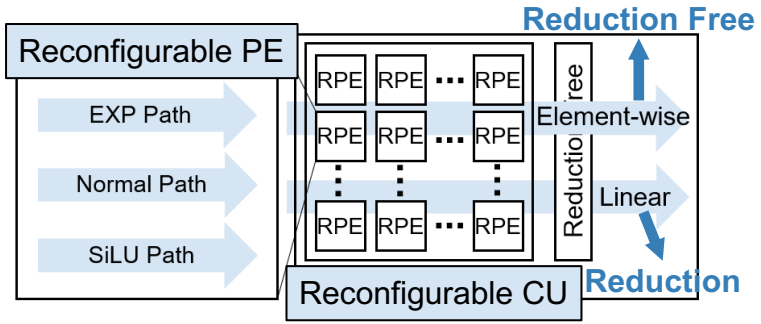


Large Memory Access but Limited Input Data Sharing

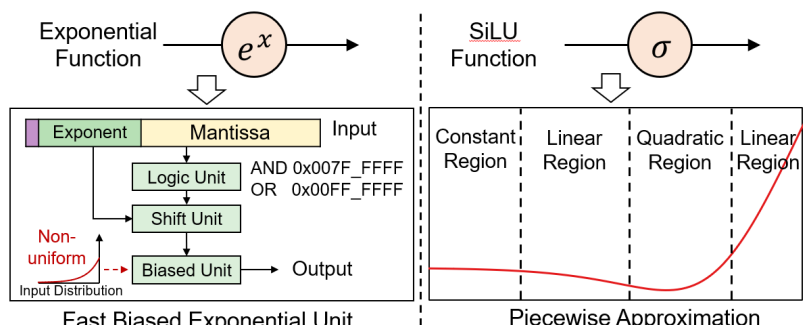
Operation	Read/Write Ratio
Linear	5146
Ele-wise	0.063



Reduction Alternative PE Array Architecture (Section 4)



Reusable Nonlinear Function Unit (Section 5)



Intra-/Inter-operation Buffer Management Strategy (Section 6)
